

October Walk and Dinner

Once again the weather knew we were going out, the strong winds gave us a break and the sun came out. We had a lovely stroll up through the valley of Whitirea Park to overlook the Titahi Bay Golf Course and then down to the calm waters of Shelly Bay. It is great to see so much planting happening in the area. We walked around the coast and admired the many views along the way. Gary and his son walked some of the way with us, but Gary has some backpain at the moment and just did some of the walk. When we returned to the carpark we met up with Gary and went off to Denny's. The meal with good company was lovely.
